

AdviSafe Risk Management:  
A brief introduction

# AdviSafe in brief

## Mission: your beacon in Risk Management

- 26 years of experience & expertise: strong track record
- 80+ FTE, operating companies in Den Helder, Aberdeen and Malta
- Expanding from North Sea Oil & Gas into other industries and geographies
- Diverse and growing customer base...

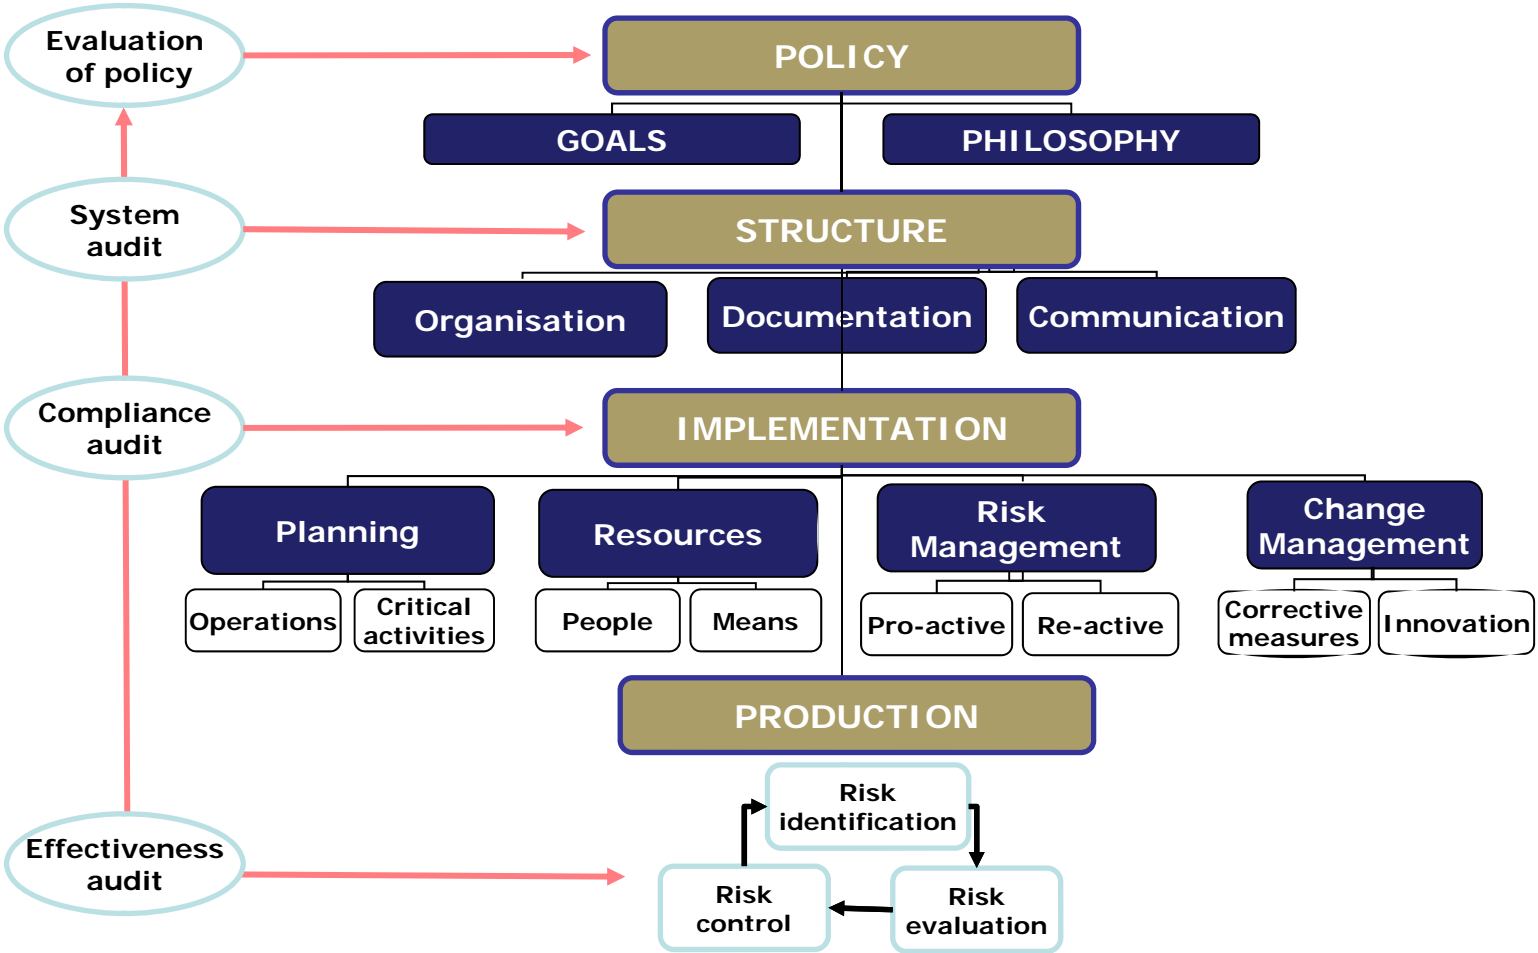

# Our proposition

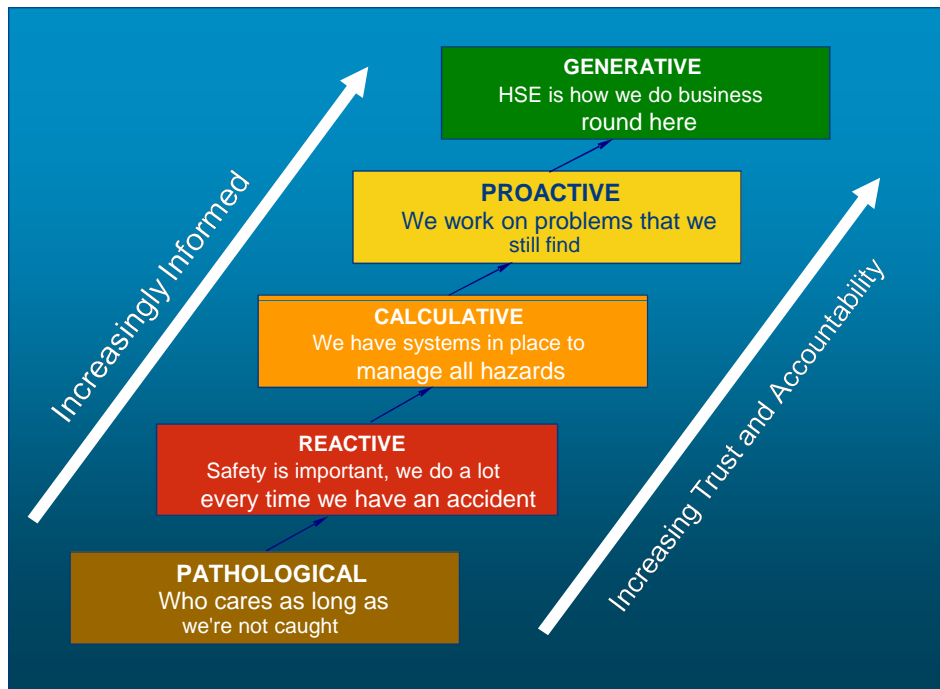

Based on our unique expertise and flexible service delivery model, we enable our customers to make risk manageable, increase organizational performance and improve process integrity:

1. A safe and healthy work environment will stimulate productivity, quality and continuity, which will positively affect turnover and operating results.
2. Identifying risk factors and making them manageable demands a systematic, structured approach: external professional support will have a positive impact on the process & outcomes.
3. We have the expertise to provide support on the full HSE & Risk Management spectrum: from pro-active organizational change programs and project execution support to reactive incident management investigation.

# Business scope

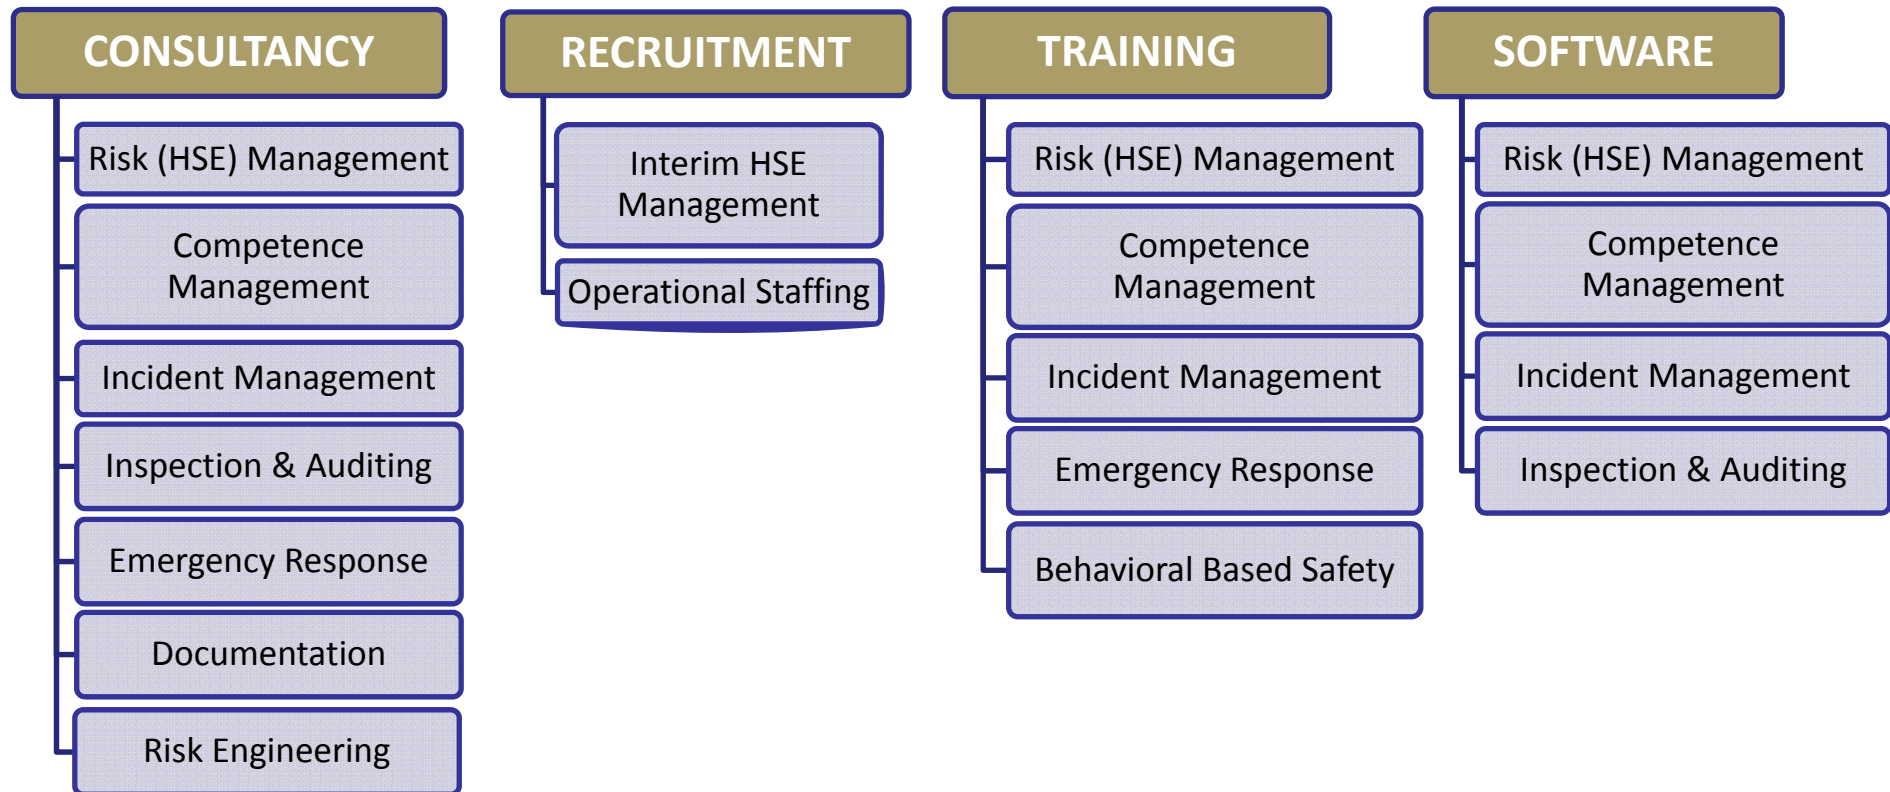

# Customized solutions

Our customer base exists out of leading global companies from different industries positioned at different stages of the HSE culture ladder.

Based on our unique experience and expertise, we deliver pragmatic solutions that meet their unique requirements and moves them forward in Risk Management in a sustainable way.
